EXPERT ADVICE FREESTANDING BATHS SPECIAL

'London' floor standing bath set with volume hand shower and crosshead handles in Vintage Brass. From £3,370. 'Zen' deck mounted two-hole basin set with Swan spout, finished with a metal handle in Vintage Brass, £915. thewatermarkcollection.eu

This industrial style bathroom was designed by Roselind Wilson, using elegant pieces from The Watermark Collection. "The brief was to create a sophisticated, industrial look for the main bathroom incorporating a bath, steam shower, double vanity unit and beautiful natural stone," said Roselind. "The scheme began with the bath which was placed under the window to make the most of the views, but the idea was to create a spectacular focal point that drives the overall look. This is achieved by the commanding vanity unit created with chunky honed travertine offset with the curves of the copper basins and industrial style vintage brass taps." roselindwilsondesign.com
